Shanxi Provincial Public Security Department

Address: Taiyuan, Shanxi

Investor: Shanxi Huabo Technology Co., Ltd.

Parking System: Stacker-crane (PXD); 5 levels above ground

Transfer cabins: 2

Parking spaces: 84

Project Description:

The Public Security Department campus has limited space and insufficient parking spaces. Driveways were often occupied for parking which cause traffic congestion and affected the performance of official duties. After installed this Yeefung parking system, more than 70 parking spaces were added. Official vehicles in the Public Security Department are parked inside this Stacker-crane system to provide dedicated passages for other users. This solves the parking problem and improve vehicle management in the campus.
