Xiamen Siming Primary School public car park

Address: Xiamen, Fujian Province

Investor: Xiamen Zhongshan Real Estate Development Co. Ltd.

Equipment type: Shuttle-lift parking system (PPY); 3 levels underground

Transfer cabins: 4

Parking spaces: 224

Project Description:

The project site was the previous playground of this primary school. After the redevelopment plan, this playground was replaced by a new complex building composed a new playground and 3800 ㎡ school function rooms and commercial stores. In order to solve the traffic congestion in that area, an underground parking system was built to create additional 224 parking spaces for teachers, visitors, surrounding commercial and government users in the daytime, and support parking needs of surrounding residential areas at night.
